

# MANCHESTER HIGH SCHOOL

## *Why Go Anywhere Else?*

*Classes are rigorous, student-centered, and give you chances to make real-world connections in areas of interest.*

### **We Make School ... Pretty Cool**

As a ninth-grader, you will be on an academic team and have most of your classes in our Freshman Center.

As a 10th-grader, you choose to join one of these academies:

- Medical Careers
- Culinary, Hospitality and Entrepreneurship
- Science, Technology, Engineering, Math and Design
- Performing Arts/Contemporary Communications
- Education and Public Service
- Liberal Arts (with Truth Seminar)

### **Other highlights:**

- ◇ Study Spanish, Latin, Mandarin, Italian and/or French
- ◇ Choose from 15 different AP classes
- ◇ Immerse yourself in an area of interest in our personalized learning seminar
- ◇ Select from an amazing array of elective classes

### **WE ARE WIRED! TECHNOLOGY IS EVERYWHERE**

*These students are taking a "virtual reality" field trip to the Great Wall of China using Google Expeditions. MHS was the first high school IN NEW ENGLAND to use Google's latest, greatest technology.*

Oh, yeah: Every MHS student also gets a Chromebook. And we let you use your cell phone between classes and in the café — just do so responsibly.

### **The 'Power Hour' Advantage**

Students have a full-hour for lunch every day -- to eat, meet with teachers, socialize and more.

### **Clubs and Extra-Curriculars**

We have a bounty of extracurricular opportunities to enrich your experience. Chess, dance, drill team, robotics, sewing, skiing, yearbook, young men's and women's leadership groups. That's just a sampling. Check [MHSRedline.com](http://MHSRedline.com) to learn more about our school — but give your- self time because there's a lot to digest!

### **Performing Arts**

Singing, dancing, acting. From our Roundtable singers, to our band, orchestra and choir, to our theatrical productions -- we have plenty of ways for you to show your creativity. And a beautiful, air-conditioned 1,100-seat auditorium too!

# MANCHESTER HIGH SCHOOL ...

## Be Part of Something Special!

The MHS community is vibrant. Our Homecoming parade and dance are a blast. We offer 21 different sports, have two swimming pools, and are installing new artificial turf fields this summer. We have amazing clubs and activities. We even provide free dinner and a late bus each day for students involved with after-school activities!

*... Why Go Anywhere Else?*

## And One More Thing: It's great to be close to home!

The Academy of Aerospace and Engineering in Windsor is 14 miles away (19 minutes)

- That's 20,496 miles (464 hours) on a bus during four years!

The Public Safety Academy in Enfield is 19 miles away (25 minutes)

- 27,856 miles / 608 hours (that's more than 25 entire days!)

The Greater Hartford Academy of the Arts in Hartford is 9 miles away (16 minutes)

- 13,176 miles / 388 hours (suggestion — get an unlimited data plan)

The stats in red show how many miles a Manchester student would travel over 4 years going to and from these magnet schools, based on Mapquest distances from MHS. (It would actually be more because buses go slower than cars and take circuitous routes.)
